Eircode: [Redacted]

County: [Redacted]

Submission Text: I am asking that camera's be placed on the traffic lights on the Slievenamon Road, Thurles. I have witnessed cars drive through red lights at this junction on several occasions. The lines which cars are to remain behind while waiting at the traffic lights need to be repainted as cars drive up too far making it extremely difficult for trucks to turn. Also, the time given for pedestrians to cross the road needs to be extended to make it safer for everyone crossing the road.
